PART # 104100, GRID CEILING SPANNER BAR

Allow for pinpoint positioning of signage at any location on the ceiling without being limited to the location of existing ceiling grids. No tools required. Simply rotate ends in place over existing ceiling grid edges - notched ends allow for a secure overlap. Also known as Cross Beams and Tile Dividers.

- Compatible with most grid ceilings
- Works in conjunction with all types of metal and plastic ceiling clips & hooks (sold separately)
- 0.048" thick aluminum, painted white
